

Max Planck Graduate Center

mit der Johannes Gutenberg-Universität Mainz

Lecture cycle and Student Seminar Summer term 2010

Wednesday, 16.30 – 18.00

In seminar room SR 107

New lecture building Chemistry Department

14.4.10	no seminar (MAINZ evaluation)
21.4.10 Prof. Holger Frey	PEG polyethylene glycol and polylactide: Two highly relevant polymers for biomedical purposes"
28.4.10	PhD Seminar
5.5.10 Prof. Thomas Palberg Prof. Kurt Binder	Formation of Complex Order in Soft Matter Systems:An overview Mesophase Formation in Block Copolymers
12.5.10	no seminar (Naurod conference MPIP)
19.5.10	PhD Seminar
26.5.10 Prof. Stephen Foley	Characterization of solid earth–climate interactions through earth history
2.6.10	PhD Seminar
9.6.10 Prof. Kurt Kremer Prof. Stephan Borrmann	Thermodynamics, chemistry, and dynamics of small molecules/clusters/particles
16.6.10	PhD Seminar
23.6.10 Prof. Jürgen Kesselmeier Prof. Harald Paulsen	Biological processes interacting with the Atmosphere "Plant enzymes and atmospheric carbonylsulfide"
30.6.10	PhD Seminar
7.7.10 Prof. Thorsten Hoffmann	"Biogenic secondary aerosol formation II: About plant physiology, chemical mechanisms, physico-chemical models and measurement strategies"
14.7.10	PhD Seminar
